

SPRINGFIELD
COLLEGE

YOUR EXPERIENCE
STARTS HERE.

SPRINGFIELD COLLEGE

IT STARTS WITH HUMANICS. IT CONTINUES WITH YOU.

Humanics. The age-old Greek ideal of the balanced individual. Like the ancient Greeks, we believe a person's emotional, intellectual, and physical lives are deeply interconnected. Our Humanics philosophy calls for the education of the whole person—in spirit, mind, and body—for leadership in service to others. We represent this ideology with an equilateral triangle, standing on its point. It's all about balance.

But, outstanding balance can only be built on an outstanding education, an exceptional student experience, a robust return on investment (You want a worthwhile career, right?), and at a place that feels like home from the moment you step foot there.

At Springfield College, we'll help you build your community, create your future, and grow into the best version of you.

If you are looking to invest in your balanced self to serve a society that needs your educated leadership, then the **best education**, the **best investment**, the **best value**, the **best choice** is Springfield College.

Come see for yourself. Experience our beautiful campus, our caring and committed faculty and staff, and our students who, like you, can change the world. Schedule a visit. It will be your **best visit ever**.

- Let us personalize your visit. You pick the time and date, and we'll do the rest.
- Find the perfect time for you on our calendar at springfield.edu/visit.
- Tours are offered year round and can include an overnight stay.

YOU'LL BE PROUD OF THE GULICK TRIANGLE.

"The symbolic meaning of The Triangle... is man in his three natures: physical, mental, and spiritual, united so as to form one being. Our triangle is equilateral. Each part should be equally developed, symmetrical with reference to itself, and also with reference to the other parts."

—Luther Halsey Gulick, MD
First director of our physical training program and creator of the inverted triangle symbol

HANDS-ON EXPERIENCE EARLY AND OFTEN

Our students jump into their programs and start their experiential learning in year one. Put theory into practice and work side by side with community members, experts, and scholars to increase your skills and add to your breadth of knowledge. Many majors blend traditional coursework with applied internships, service-learning programs, research opportunities, or fieldwork. You'll discover innovative ways to solve problems, and turn your education into a valuable life experience. **We call this return on investment, Springfield College style.**

“The fact that we go out into the field so early gives us a basis of knowledge and examples of clinical experiences which provide context for our future learning. Seeing what I’m learning in action is very beneficial. Conversely, learning later about what I’ve observed gives me a mental image of the skill or theory and how it works functionally. Experiential learning also allows me to observe the various opportunities for specialization I have in my field.”

Nate Inglis, Class of 2021
Master of Science in Occupational Therapy,
Class of 2022

Occupational Therapy Major
Student Ambassador Executive Board
Intramural Athlete

YOU’LL BE PROUD OF YOUR ACADEMICS ...

Our academic programs will challenge you to grow, intellectually and personally. Plus, our “early and often” philosophy about hands-on learning will put experience on your resume before you even graduate.

Choose from more than 40 undergraduate majors in a wide range of human-helping fields. Our most popular programs include exercise science, physical therapy, physical education, sport management, physician assistant, business, athletic training, health science, psychology, criminal justice, and biological sciences.

To explore our list of minors, go to springfield.edu/programs.

... AND OUR FACILITIES

Benefit from our smart facilities, including the new health sciences building (anticipated opening 2023).

This facility will reflect best practices in pedagogy, clinical education, and interprofessional collaboration, while providing future practitioners, researchers, and educators a distinguished education.

Undergraduate Majors

- Accounting
- Art and Design*
- Art Therapy

- Sport Management
- Sports Biology
- Therapeutic Recreation
- Undeclared (First-year only)

Pre-professional Programs

- Pre-dental
- Pre-law
- Pre-medicine

* Programs marked with an asterisk can lead to teacher certification.

ENGAGED LEARNING FROM INTERNSHIP TO EMPLOYMENT

At Springfield College, we are rightfully proud of the “power and prestige” our degrees hold. To that end, we are honored to have outstanding connections to the businesses, practices, organizations, and institutions at which our students receive practical experience in their fields through coveted internships, clinical placements, and fieldwork. What’s even better is that a high percentage of these internships turn into full-time positions for our students upon graduation. You will be able to take advantage of our professional network before you even graduate.

“As a student, I had three full-time internships at various locations. I currently work at one of the sites where I was placed as a student, which is an absolute dream come true. I never imagined having this opportunity. My first job out of college at Hartford Hospital also was inspired by our first hands-on experiences as mobility volunteers.

“Springfield College fosters a learning environment that provides practical experiences that ensure that we are successful and work-ready clinicians in addition to our academic subject matter.”

Camille Richards '14, DPT'16

Physical Therapy Major
Internships: Weldon Rehabilitation Hospital
and Hartford Hospital
Job: Physical Therapist
Weldon Rehabilitation Hospital, Springfield, Mass.

YOU'LL BE PROUD OF YOUR OUTCOMES.

Not only do we have stellar outcomes related to career and graduate school placement, but our rigorous academic programs prepare our students for certifications and the career-defining exams they'll take. That's why Springfield College is worth the cost, even if it means possibly spending more.

95%

of our 2019-20 bachelor degree recipients are employed or enrolled in graduate school. Our placement rate is three percent higher than the national average for similar schools and, on average, higher than other colleges and universities in New England.

Top 5 industries

for 2018-19 bachelor degree recipients:

- Healthcare
- Education
- Social Services
- Sports and Fitness
- Business

Superb Exam Results

Students in our physician assistant program have consistently achieved a 100 percent pass rate in the past decade, and regularly perform above the national average on certifying exams.

AMAZING ACADEMICS WITH ACCOMPLISHED FACULTY

Our academic philosophy is to help students expand their minds and think for themselves. We're striving to provide students with an education that allows them to develop their own opinions, thoughts, and passions about their fields. Education at Springfield College, like everything else, is holistic. Engaging interactions are encouraged within the classrooms, between faculty and students, as well as between students. Rigorous academic offerings and a dedication to discussion and collaboration create individuals who are intellectual, innovative, and not afraid to speak up and be leaders.

YOU'LL BE PROUD OF YOUR FACULTY.

At Springfield College, we aren't shy about touting the impressive work done by our faculty. They are all about the students, and find creative ways to help them learn and develop into leaders who will make a difference in the world. Take a look at the accomplishments of just a few of our talented faculty members.

Kyle Belanger

Kyle Belanger, assistant professor of communications, scored big during Super Bowl LV as he covered the lead up to the big game on Radio Row for the seventh-consecutive year. Belanger worked with national sports marketing firm Antero Sports to produce dozens of segments on national sports shows from coast to coast, and continued his volunteer work with the Wounded Warriors Amputee Football team, which plays in a game that follows the Super Bowl each year.

Samuel Headley, PhD

Addressing real-world problems in order to come up with solutions that make people healthier happens each day at Springfield College. Samuel Headley, PhD, professor of exercise science and director of clinical exercise physiology, is doing just that. His research on activity patterns and sedentary behavior of Springfield College employees aligns with our strong focus on health and wellness and will produce actionable items to improve the health of a large population. The best part? Headley worked with many students on this research, allowing them to get hands-on experience and be a part of furthering an important area of study.

Dawn Roberts, PhD, and Kimberly Nowakowski, PT, DPT, MS

Members of our faculty believe that effective learning takes many forms—and isn't limited to the classroom. That's why physical therapy associate professors Dawn Roberts, PhD, and Kimberly Nowakowski, PT, DPT, MS, have taken some of their students on global health service trips to volunteer in clinics where patients in Haiti and Trinidad and Tobago are in need of physical and occupational therapy services. Our students gain an understanding of global health issues and put their academic classroom knowledge to the literal test. Learning on the international stage is just one way our students benefit from the Springfield College experience.

88%

of our full-time faculty members have earned the highest degrees attainable in their areas of expertise.

72%

of our full-time faculty members hold doctoral degrees.

100%

of our full-time coaches are teacher-coaches.

LEARN TO SERVE AND LEAD THE WAY

The value of your Springfield College education will be reflected in far more than your GPA. The quality of life that you will build will make your education one that rewards you—and those whose lives you touch—throughout your lifetime. We educate our students in spirit, mind, and body, for leadership in service to others, which goes to show that not all colleges are the same. That is more than a mission to us: **it's a way of life.** Volunteerism and service are integrated into our curriculum through internships with schools and nonprofit organizations.

“Springfield College fosters an environment that enables students to pursue their passions through numerous leadership and service opportunities. On campus, I am involved in Y Club, the ambassadors program, Leadership Summit, and Alternative Break Club. I have taken the Humanics Seminar class. By living the Humanics philosophy, I can make an impact on a local, national, and global level from tending a community garden, to experiencing new cultures by attending a global YMCA conference halfway across the world. I am so incredibly lucky to call Springfield College my home.”

YOU'LL BE PROUD OF YOUR SERVICE.

Our dedication to service is not just lip service. Springfield College was founded with the mission to educate the whole person for leadership in service to others. It is tightly woven into the fabric of our being, just as we know leadership and service are a big part of who you are.

Here are just a few examples of how we serve our community, and how you can become involved.

Team IMPACT

To date, Springfield College has had 15 of its athletic programs partner with Team IMPACT, a national nonprofit that connects children facing serious and chronic illnesses to local college athletic teams.

Community Mobility Clinic

Coordinated by the Department of Physical Therapy, physical and occupational therapy students work with members of the community who have experienced a stroke or other mobility disorders.

SEAT at the Table

Our Office of Multicultural Affairs staff collaborates with students to create an extensive diversity conference called SEAT (Social justice, Equity, Accountability, Transformation) at the Table Week. The conference educates the community on topics related to social justice, identity, power, privilege, positionality, and radical community care.

Partners Program

A student-led mentoring program that pairs participating Springfield College students with a local elementary school youth one day per week for several hours to work on academic achievement and participate in recreational or arts-related activities on the Springfield College campus.

Kyla Boyns, Class of 2021

Sociology Major; Business Management, YMCA Professional Studies, and Social Justice Triple Minor Program Director on the Executive Board for the Y Club Leadership Summit Facilitator Student Ambassador

FROM MENTORSHIP TO OPPORTUNITY

“I wanted to learn how to make a difference in the community around me using practical business techniques. The different programs that were offered by the business department, and the way the institution involved the community and immersed students in the different businesses within it, attracted me.

“As a volleyball player, my schedule didn’t allow me to complete a formal internship during the school year. Instead, I had the opportunity to serve on the NCAA National Student-Athlete Advisory Committee. Serving on this committee gave me insight to the inner workings of each facet of the NCAA national office. I gained valuable experience in professional networking, collaboration, and understanding different management styles, which directly influenced my decision to pursue the NCAA postgraduate internship.”

YOU’LL BE PROUD OF YOUR CONNECTIONS.

Springfield College students benefit throughout their journeys from the attention of some very interested and active people—a network of faculty, professional, and alumni connections—who are committed to helping you make your way in your career.

Greg Woods left a family football dynasty to play volleyball when, in high school, a local coach challenged him to be better. Likewise, when Woods arrived at Springfield College, the men’s volleyball coach saw something in him and pushed him to keep a spot on the championship team.

From your teacher-coaches who will encourage and motivate you like they do for student-athletes like Greg Woods, to administrators like Executive Director of Athletics Craig Poisson, who encouraged Woods to apply to the NCAA student-athlete advisory committee, leading to a coveted NCAA post-graduate internship, there is a team of individuals who have your back as you make your way through college and out into the world.

Greg Woods ’16, G’17

Business Management Major
Master of Business Administration
Men’s Volleyball Team
Student Society for Bridging Diversity
NCAA Division III Student-Athlete Advisory Committee
NCAA Postgraduate Internship, Indianapolis

PLAY HARDER

Whether you want intense athletic competition or a friendly recreational game, you will find it at Springfield College. About 80 percent of our students participate in athletics through varsity, intramural, and club sports. So, you'll almost always find a way to play and get a good workout.

The serious athlete has 26 Division III teams available, many of them conference champions and nationally ranked. Springfield College has produced Olympic champions, National Football League executives, leaders in the field of strength and conditioning, and national and international coaching legends.

YOU'LL BE PROUD OF THE PRIDE.

Our student-athletes excel in the classroom, display the focus and drive on the field, and serve as leaders in the community. Here are some of the ways they make a positive difference for themselves and others:

All of our full-time head coaches also are professors and understand the academic rigors that our student-athletes face. In the fall of 2020, our nearly 700-plus student-athletes had a cumulative GPA of **3.49** during the fall semester, with **89** earning a perfect 4.0 GPA.

In 2018-19, Springfield College had **25** student-athletes earn All-America honors and **81** student-athletes were selected to All-Conference teams.

Springfield College Athletics finished **38th** nationally in the final overall standings of the 2018-19 Division III Learfield Directors' Cup, marking the 11th time in the last 12 years the Pride has ranked in the **top 10 percent of the 450 Division III athletic programs** in the country.

In 2021, for the **fifth-consecutive year**, a Springfield College student-athlete was chosen to participate in the **NCAA Division III Student Immersion Program** in conjunction with the NCAA Convention.

Springfield College earned honorable mention recognition for the NCAA and Minority Opportunities Athletic Association **2019 Award for Diversity and Inclusion**.

YOUR LIFE AT SPRINGFIELD COLLEGE

Our Humanics philosophy means a well-rounded education and a great experience outside the classroom, too. To balance out your studies, take advantage of what the College has to offer.

YOU'LL BE PROUD OF OUR GUEST SPEAKERS.

Education doesn't just occur in the classroom. We host internationally known speakers, writers, musicians, and philanthropists on campus to share their stories with our students, and help us all to think a little bigger.

Recently, we've welcomed Professor Ibram X. Kendi, PhD, scholar, antiracism activist, and *New York Times* bestselling author; environmentalists Fabien Cousteau and Céline Cousteau; mental health awareness advocates Jessie Close and Calen Pick; best-selling *Tuesdays with Morrie* author Mitch Albom; Grammy award-winning singer and activist Angelique Kidjo; widely-renowned author Sherman Alexie; and paleoanthropologist Richard Leakey as part of our Arts and Humanities Speaker Series.

Events like this happen regularly and we encourage students to attend, ask questions, be immersed in the event, and leave with an even better understanding of the world around them. Or, as we like to call it, a typical Wednesday night.

Here are some other guests we've welcomed to campus:

Women's basketball legend **Rebecca Lobo** and *Sports Illustrated* senior writer **Steve Rushin**

Kevin Pearce, former pro snowboarder, motivational speaker, and co-founder of the LoveYourBrain Foundation

Tommie Smith, 1968 Olympic Gold Medalist, Social Justice Activist, and Educator

Alexander Wolff, senior writer for *Sports Illustrated* and author of the book *The Audacity of Hoop: Basketball and the Age of Obama*

Share our traditions with first-years and transfers as a New Student Orientation Leader.

AND, YOU'LL LOVE OUR DINING ROOM.

The team of chefs, foodies, and hospitality experts from Harvest Table have joined Springfield College to provide innovative, authentic, and personalized food experiences to our campus community. Sharing the same core values as Springfield College, the offerings of Harvest Table complement our dedication to health and nutrition.

Build your community with Habitat for Humanity.

Get a jump on developing leadership skills in the Y Club.

IT'S BEAUTIFUL HERE JUST ASK EXPEDIA.

YOU'LL BE PROUD OF YOUR COMMUNITY.

You'll find a lot to do in and around Springfield. In the Pioneer Valley and all of western Massachusetts, you can explore the arts, the outdoors, dining, nightlife, and family fun. Discover numerous arts and cultural festivals, distinctive museums, and many musical and theatrical venues.

You'll have opportunities to enjoy recreational and leisure activities. Hike nearby mountains such as Mount Holyoke and Mount Tom. Ski or snowboard at many major ski resorts that are within an hour or two drive from the campus.

Basketball's most complete library, the Naismith Memorial Basketball Hall of Fame, is located in Springfield. Not far from campus is New England's largest and most popular amusement park, Six Flags® New England. And, you can explore the Amazing World of Dr. Seuss Museum, honoring the life and work of Springfield's native son Theodor Seuss Geisel.

The College is 30 minutes from Hartford, Conn., 45 minutes from the Berkshire Mountains, within an 1 1/2 hour drive of Boston and Albany, and 2 1/2 hours from New York City.

The average temperatures for Springfield are 70 degrees Fahrenheit in the summer and 40 degrees Fahrenheit in the winter.

Scan this QR code to experience our campus community virtually.

Expedia.com has confirmed a truth that Springfield College students, alumni, and neighbors have been touting for years—our campus is beautiful!

In an Expedia.com travel blog post titled "15 of the most beautiful college campuses," Springfield College was listed among such beautiful and prestigious institutions as Tulane University, University of Washington, and Ohio University.

As Expedia criteria for the impressive list states, "beauty" means more than stunning scenery and pretty buildings. Sure, we have those. However, we also rated very high in the critical areas of beyond the books, school spirit, community outreach, and local vibes.

BEST VALUE FOR THE BEST EDUCATION

Springfield College was ranked for the fifth-consecutive year as a Best Value School by *U.S. News and World Report* thanks to our high-quality educational offerings and low cost.

100%

of new incoming students at Springfield College receive financial aid.

\$30,000

Average financial aid award at Springfield College

100% of students who complete FASFA are awarded financial aid.

16 Number of consecutive years the cost of tuition at Springfield College has remained well below the national average compared to similar private colleges.

Students from all over the country and across the globe have made an investment for their futures at Springfield College. We will not let them down, and we will not let you down either.
