The Springfield College Department of Public Safety is comprised of police officers, dispatchers, and community service officers, whose primary responsibility is to protect life and property and prevent and detect crime. The department operates 24 hours per day, seven days per week. Blue Light Emergency telephones are installed throughout the campus, including residence halls, Blake Track, Harold C. They can request these passes online or in person at the station.

Information regarding rules and regulations and/or to sign up for any parking pass can be found in the parking section of the Public Safety website.

SC Alert and RAVE Guardian mobile app

As a Springfield College student, you are automatically enrolled in this service; faculty and staff are, too. However, we encourage you to frequently log in to the system using your PrideNET ID and password to check and/or update your information. That way, we'll be able to reach you in an emergency situation—wherever you are.

While SC Alert allows Springfield College to notify you of an emergency, Rave Guardian app can help you notify Springfield College of an emergency. The Rave app essentially transforms your cell phone into a personal safety device. With this app, you can create a virtual safety network, immediately connect with public safety, and even submit anonymous tips that can help make the College even safer.

For further information on any of these topics, please visit our website, springfield.edu/publicsafety. You can also like us on Facebook, [scpublicsafety](https://www.facebook.com/scpublicsafety), to follow our department with updates and our community engagement outings.

Doggett International Center

Thinking about studying abroad? There's no better time than now. Through the Doggett International Center, Springfield College offers several study abroad opportunities, which count toward earning a degree. Students can study in countries such as Italy, China, Spain, and England.

When should I start thinking about studying abroad?

The sooner the better. The key to studying abroad—and still graduating on time—is scheduling. Think ahead. We suggest researching your study abroad program at least two semesters before you plan to travel overseas.

You also should plan to stop by one of our general orientation meetings, held at the beginning of each semester. Look for announcements around the campus and call the international center at (413) 748-3215 to register. From there, you can work out a plan with your advisor and your parents/guardians.

Where can I go?

Springfield College has developed partnerships with four foreign universities in three countries, including the University of Newcastle and the University of Wollongong in Australia; York St. John University in England; and University of Limerock in Ireland. The College also has partner agreements with the Academic Programs International and Center for International Studies, The Education Abroad Network, and Umbra Institute.

Each partner university is unique and will offer a chance to choose classes in your major or minor, in addition to electives and courses that will fulfill the General Education Program at Springfield College. All courses need to be pre-approved by your advisor and the registrar.

When can I go?

You'll be able to study abroad as early as your second semester of your sophomore year. Many students also travel overseas during their junior year.

Who can study abroad?

You—if you have a 3.0 GPA, are enrolled as a full-time undergraduate student, and have an excellent citizenship record at Springfield College.

What about my financial aid?

If you meet the requirements and choose to study at one of the Springfield College partnership schools, you may qualify to have a portion of your financial aid applied to your semester abroad. Each financial aid package is different. Schedule an appointment with our Office of Financial Aid in order to determine your eligibility.

Where do I find more information?

Introduction

The Springfield College Health Center provides medical services to all full-time undergraduate and graduate students through the delivery of patient care, health education, and wellness promotion.

Health Requirements

The Health Center complies with Massachusetts state mandate of immunizations and required health forms. Each incoming Springfield College student—whether first-year, transfer, graduate, doctoral, exchange, or visiting scholar—is required to complete and submit health requirements to the Health Center by the listed deadline. The three-page health form includes: health history, physical exam, and immunizations. All Health Center forms and requirements may be found online at springfield.edu/healthcenter. Forms must be submitted no later than July 15 for the fall semester, December 15 for the spring semester, and April 15 for the summer semester.

For questions regarding these requirements, call the Health Center at (413) 748-3175 Monday through Friday or by email at healthcenter@springfield.edu.

Patient visits may be scheduled by appointment or on a walk-in basis during walk-in hours and depending upon staff availability. Urgent care problems will be seen immediately without an appointment.

It is not necessary to purchase the Springfield College health insurance plan in order to receive services at the Health Center.

Appendices

The Health Center provides the following services.

- Orthopedic Clinic appointments are scheduled every other week and staffed by an orthopedic physician assistant.
- Nutrition Clinic appointments are scheduled every other week and staffed by a registered dietitian.
- Physical therapy services are available on campus with a medical prescription.

Confidentiality

All medical information and medical records are considered confidential and will not be released without the patient's consent.

For students 18 years of age and older, medical information will not be released to parents without prior student consent. For students younger than 18 years of age, confidentiality is maintained as protected by law, specifically regarding reproductive health.

Health Insurance

Federal and state law requires health insurance coverage for all students enrolled in nine or more credit hours at colleges and universities in Massachusetts. You may elect to carry private health insurance, providing it is a qualified plan, or the Springfield College health insurance plan.

If you are covered by private health insurance, the plan must allow you to receive services in the area where you're attending school (Springfield College), including preventive and primary care, non-emergency services, surgical services, hospitalization benefits, ambulatory patient services, pharmacy, and mental health services. If your plan does not allow this, you will need to purchase Springfield College health insurance.

If coverage is through an out-of-state Health Maintenance Organization (HMO) insurance plan, and requires you to use network (HMO) doctors and services, the plan is not a qualified plan. HMOs require approval for non-emergency medical and surgical services out of the plan's service area, and emergency coverage is not enough to qualify. Therefore, you will need to purchase Springfield College health insurance.

Appendices

Health insurance enrollment and inquiries are handled through the Business Office. Prior to each academic year, required students must either accept or decline the Springfield College health insurance plan via the Business Office web page by the due date. If no action is taken, students will automatically be billed for the school's health insurance.

Please Be Advised

For details regarding specific insurance coverage, you should contact your health insurance company directly. The College is not responsible for charges that may be incurred for medical services performed outside the Springfield College Health Center (e.g.: laboratory services, radiology services).

The Health Center does not bill insurance directly, so you must be familiar with procedures associated with your health insurance policy.

There is no co-pay or charge to you or your insurance for any services rendered at the Health Center with the exception of immunizations administered at the Health Center.
